Launched here in Colorado Springs, this unique program works to quiet the world around every child, while honoring the power of human connectedness and gratitude for all life's Simple Gifts!

Join Linda Weise, the creator of the program, as she shares original songs and books. You'll learn how to bring these elements to your classroom, while utilizing the program as an additional teaching tool. Come enjoy learning how to write your own songs for your classroom, how to play chords on the ukulele, and how to make a hand-bound book to bring enriching music, literacy, and more into your classroom!
